COURSE IN READING

MUTUAL BENEFIT READING CIRCLE MEETS AT HOME OF MRS. C. H. TOLL

The tenth regular weekly meeting of the Mutual Benefit reading circle was held yesterday at the home of Mrs. Charles H. Toll, with thirty-four ladies in attendance. New members allying themselves with the circle are, Mrs. H. F. Bartelson, Mrs. Harry Duey, Mrs. A. L. Morgan and Mrs. C. L. Peckham.

The review of "Misunderstood Children" was completed by the retelling of the remainder of the tales by Mmes. Beamon, Rathbone, Blech, Cassell, Logan, Weetman, West, Plasterer and Sampson. Following this the truths taught by the tales were named and discussed. The personal experiences and the queries that arise during the discussion form a very valuable part of the work.

Many of the women brought their first papers to be forwarded to the Bureau of Education at Washington, in charge of this Parent's Reading Course, which is being promoted under the direction of the local Federation of Parent-Teacher Associations. These papers will furnish proof to those in charge of the Bureau that the writers have read and mentally digested the books they cover. At the end of the course, a Mother's Certificate will be sent to all who have given evidence that they have read and understood all the books.

A personal invitation is not a requisite to anyone desiring to affiliate with the circle. The only demand is that those joining shall attend as regularly as may be, and that notes be taken, sufficient to enable one to review the main points in the books read.

The circle meets every Wednesday at 11 a. m. at 1635 Kenneth road. At 2 p. m. it disperses. At twelve o'clock the members enjoy picnic lunches under the trees for forty-five minutes. This leaves over two hours for reading and discussion.

MAY BE HANGED WITH SILKEN ROPE

IRISH REBEL LEADER MAY POSSIBLY ENTER PLEA OF INSANITY TO ESCAPE DEATH

(Special Service to Glendale Evening News)

LONDON, May 4.—Sir Roger Casement, the Irish rebel leader, who landed in the island from a German ship and was captured, has been examined in the course of a preliminary trial and remanded. It is not believed that he can escape death unless the courtmartial should accept a plea of insanity that it is possible his counsel will make. Should Casement be condemned he may be extended the ancient privilege of noblemen of being hanged with a silken rope. Sir Edward Carson, the Ulster Protestant leader, and John Redmond, the leader of the Irish Nationalists, have joined in an appeal to the British government for mercy to the rebels.

GERMANY TO SEND SUBMARINE REPLY TODAY

UNITED STATES AMBASSADOR GERARD INDICATES KAISER'S REPLY FAVORABLE

(Special Service to Glendale Evening News)

BERLIN, May 4.—United States Ambassador Gerard notified the State department in Washington today that the kaiser's reply to the demands made by President Wilson would probably be given today. Gerard hints that the answer will probably be favorable; but there is much doubtful speculation here as to the nature of the communication. Many believe that the kaiser and his chancellor will attempt to prolong the controversy by bringing up side issues.

GERMANS DRIVEN FROM DEAD MAN'S HILL

FRENCH REGAIN IN TWO MOVES POSITIONS THAT COST TEUTONS WEEKS OF DEADLY FIGHTING

(Special Service to Glendale Evening News)

PARIS, May 4.—It was officially announced here today that the French forces under Gen. Petain had practically cleared the Germans from Dead Man's hill. To gain those positions the Germans expended thousands of lives and sent a stream of wounded back to Germany. In two quick moves the French regained the positions. The gains on Dead Man's hill have been consolidated and the troops of the republic are back again in trenches that will cost the Germans as many more lives as at first if they try to retake them.

PLANS TO WITHDRAW FROM MEXICO

GEN. SCOTT WIRES WILSON 2000 WORDS EXPLAINING PROBABLE AGREEMENT WITH OREGON

(Special Service to Glendale Evening News)

WASHINGTON, May 4.—President Wilson received a 2000-word message from Gen. Hugh Scott today concerning the conference with Gen. Obregon. It is understood that the message is optimistic. It states that a better feeling has been created in Mexico and that the Mexican responsible leaders will probably acquiesce in the gradual withdrawal of the American troops, which should be completed within two months. It is believed that by that time the Americans and Mexicans combined will have run down the brigands and killed or captured most of them.

DESPONDENT AND RACKED WITH ILLNESS WOMAN HANGS HERSELF NEAR REST HAVEN

(Special Service to Glendale Evening News)

LOS ANGELES, May 4.—The body of Mrs. H. Vincent of Pomona was found this morning in a barn near Rest Haven home. She had hanged herself. For some time past Mrs. Vincent has been in poor health. Racked with illness and despondent she put an end to her life.

ZEPPELIN L-20 WRECKED IN NORWAY

HUGE AIRCRAFT DRIVEN ASHORE ON HAFSO FJORD—FIVE OF CREW RESCUED

(Special Service to Glendale Evening News)

LONDON, May 4.—One of Germany's latest Zeppelins, L-20, is a complete wreck on Hafso Fjord, Norway. The huge aircraft was damaged in some way presumably by gunfire, as she was seen north of Sandnaes unmanageable and with part of her envelope crushed, drifting rapidly past the coast. Five or six men jumped from the airship and fell into the sea. The commander and one seaman were rescued and later two other officers and one non-commissioned officer were brought ashore. It is thought that the Zeppelin L-20 is one of the airships that made the attack on the English coast, Tuesday, and that she was damaged in that expedition.

SAN FRANCISCO IRISH TO PROTEST

SAN FRANCISCO, May 4.—Intense feeling has been created among the local Irish by the report of the execution of the leaders of the uprising in Dublin and elsewhere.

OPEN AIR SOCIAL

CONGREGATIONAL CHURCH WELCOMES NEW MEMBERS AT LA RAMADA PICNIC

One of the most enjoyable affairs and also one of the most successful ever carried out by the First Congregational church of Glendale took the form of a picnic at La Ramada, Wednesday night. One hundred and fifty were present. About 20 of the Boy Scouts were also among the guests, under charge of Scoutmaster Guthrie and Assistant Scoutmaster Lane. The object of the open air social was to welcome the new members who have joined the church during the past quarter.

The large gathering began to assemble in the afternoon and those able to be on the grounds at that time were able to enjoy not only the pleasant environs of La Ramada with its lawns and flowers, but also to admire the surrounding country and to wander to the foothills. About 6 p. m. the full party had gathered and made a very imposing appearance among the pleasant walks and lawns of La Ramada.

Picnic lunch was then enjoyed, those present bringing their own baskets. The utmost goodfellowship prevailed. After supper an earnest and appropriate devotional service was held in which the singing of the familiar gospel hymns was a feature. The Congregational church possesses a very fine male quartet and a large choir of excellent singers and those cultured voices were heard to effect in the open air.

Among other features of the evening was a drill and exercises by the Boy Scouts, which elicited much applause.

Mr. Blake Franklin, 1498 W. Third street, a leading member of the church and a member of the male quartet, then became the center of attraction. Wednesday was Mr. Franklin's birthday, but no one except his intimate friends knew of it until a handsome cake decorated with a number of candles was placed before him. He then received the congratulations of the crowd and was presented with a handsome bouquet of flowers.

At the close of the picnic the assembled guests joined in singing several of the old songs, such as "Auld Lang Syne."

TROPICO MAY FESTIVAL

Unusual interest is being manifested in the open air entertainment to be given on the afternoon and evening of May 13th by the Tropico Playground Association and the Concert Band. May-pole dances by the school children, a match tennis game and a baseball game will occupy the afternoon. These two latter events will be of a class calculated to excite considerable interest and will no doubt attract a large attendance.

Commencing at 7:30 p. m. the best talent in Tropico will stage a genuine old-fashioned circus side show, given under canvas, and with all the red fire, brass bands, sawdust and peanuts required for an absolutely correct presentation. That this show will be correct in every detail is assured by the fact that it will be managed by those old time showmen, Messrs. Ed Shipman and A. J. Van Wie, who will draw from the ranks of Tropico's best talent for their assistants. It is a well-known fact that Tropico harbors an array of entertainers, poets, playwrights, etc., that are hard to beat and as a large number of these have volunteered to appear, the success of this feature is assured.

The Tropico Concert Band will furnish a concert and arrangements are about completed for an open air dance. Refreshments appropriate for the occasion will be served by the ladies representing the various women's organizations in the city.

GARDEN SOCIETY TONIGHT

A public stereopticon lecture by Mr. Theodore Payne, expert on wild flowers, will be given at the High School auditorium tonight at 8 o'clock sharp, under auspices of the Glendale Garden Society. All members and friends are cordially invited. New members are especially asked to be present. The public is always welcomed to all meetings of the Garden society; it exists for the sake of everybody. Mr. Payne possesses the most beautiful slides of California wild flowers ever exhibited. He brings the results of years of study and careful investigation to us tonight. All members owning membership badges are asked to wear them this evening; let us all be proud to show our loyalty to the Garden society.

BUY VALLEY SUPPLY CO.

MESSRS. HILL AND HOLLISTER PURCHASE FEED AND FUEL SECTION OF OLD CONCERN

After many years spent in building up the Valley Supply company, 306-8 Brand boulevard, Harry P. Coker has decided to sell the feed, fuel and seed section of the business and devote himself entirely to the other part, the Crystal Ice and Cold Storage company. The growth of the two businesses has recently been so great that Mr. Coker and his efficient partner, Mrs. Coker, find it too much to attend to both parts of the concern. During the first three months of this year the feed and fuel end of the business showed an increase of \$1400 over the same period in 1915 and that was a record year in the business.

The Valley Supply company will retain its name but experience a change of ownership in the persons of J. K. Hill and V. M. Hollister. Mr. J. K. Hill, of 120 N. Kenwood street, came to Glendale from Clear Lake, Iowa, about a year ago, to settle here. He had been in the lumber and coal business in Iowa for about thirty years and decided to rest in California. A few years ago he came to California with a similar intention but conditions in the lumber business not suiting him he went back to Iowa. The call of California, however, was too strong, so he returned and has been looking about for a business opening. Then this opportunity of buying the Valley Supply company occurred.

Mr. V. M. Hollister is a Seattle man. He is assistant manager of one of the large wholesale houses in that city and like many others having visited Southern California he has not rested until he got an opportunity to settle here. His long business experience will be valuable in this new line. Mr. Hollister will come to Glendale June 1.

Messrs. Hill and Hollister will conduct the Valley Supply company on its old lines. The business is in a very excellent condition and the office is equipped with all the modern labor-saving appliances and devices. There will be little need for change except as the business increases. With the exception of a few of the employees, whom Mr. Coker will take with him to the Crystal Ice company, the old people will remain in the service of the new company.

Meantime the Crystal Ice and Cold Storage company and H. P. Coker and Mrs. Coker will have their offices for some months in both places—at 306 S. Brand boulevard and also at the ice factory, 126 East Third street. The Crystal Ice company has had a most remarkable record since its organization and installation. Its customers were numerous to begin with, all the old customers having given their allegiance to the new company, while a thorough canvass of the city brought in many new ones. Some opposition having developed, Mr. Coker determined to branch out and has succeeded in building up a very large business in Hollywood and in the neighboring towns.

This business has grown so large that it has become essential to devote attention to it alone. The Crystal Ice and Cold Storage company will therefore handle ice, distilled water, and soda and effervescing beverages of all kinds. There is a very large field for these articles throughout the summer and winter also. The business is not entirely a summer one, as in some states. The growth of this particular business has been quite phenomenal.

Ice from the Crystal Ice and Cold Storage company is delivered to customers direct from the factory and reaches them at the freezing point and not at the melting point, as is the case with ice that has made a long journey in the hot sun. Customers are beginning to discover that ice delivered at freezing temperature keeps longer and is more profitable than the heated-up ice. This of itself has increased the business greatly.

QUEEN CONTEST ON

Enthusiasm in the Tropico May Queen contest is waxing stronger every day and it has been decided to hold the contest open until Wednesday of next week. Two little girls have been selected as candidates from each school and there is much excitement among their little playmates and their older friends as to which one will have the honor of being queen at the May fete. The proceeds go to the Playground fund.

VALUE OF GENUINE CRITICISM

Nothing is more calculated to bring out the real character of a person as criticism. Criticism is a great power in the world and if exercised in a right spirit may be of inestimable benefit to those toward whom it is directed. There is, of course, criticism that is actuated by personal animosity that can have no real beneficial influence on anyone's character except insofar as it shows if that person has strength of character enough to pass over it in silence.

Some people are of so slender a mental makeup that they cannot stand any kind of criticism. These often lose their temper and never stop to ponder whether or not there is any lesson to be learned from some other party's estimate of their actions. To some people criticism of any kind is an outrage. Now there is no man so great that he is above criticism. Indeed most great men, especially in public life are subjected to criticism hostile, sarcastic or semi-comic every day of their lives. Men in public life need not be too sensitive to criticism or they might as well get out of public life altogether.

Criticism, however, may be beneficial if taken in the right way. No one is above criticism for no one is wiser than all the other members of the human family. From the critic you get the benefit of another viewpoint. The critic may be right or he may be wrong. He may intend to be kindly in his criticism or he may be savagely unkind; but whatever may be the case the critic is giving you the privilege of looking at yourself through the eyes of others.

People who think that they are above all criticism and are angered because someone dares to take liberties with their sacred individuality are usually confirmed in their own ideas by criticism. They resent any faultfinding keenly and inevitably take the very opposite course to that indicated by the critic. On the other hand those who cannot stand up under criticism are to be pitied. It was said that the savage criticism which the London Quarterly made of Keats' poems killed that keenly sensitive poet. The attack preyed on his mind and he finally developed consumption and died in the very morning of his youth and promise.

There are many such exquisitely sensitive natures. They should be protected, for it is hard to walk through this world lacking the imperviousness of mind that enables one to throw off the effect of unjust attack or cruel misconception. Byron when attacked by Jeffrey in the Edinburgh Review turned on his foe and literally blasted him in that wonderful poem, "English Bards and Scotch Reviewers." That criticism awakened up the poet to a knowledge of himself and did him good; but for Jeffrey's savage attack the young nobleman might have lived on unconscious of his true powers.

Those who succumb in the presence of criticism are to be pitied. Such people take it for granted that the critic is right and accept the criticism as final. They make no effort to weigh the critic's judgment and to act on it if it should prove sound. They seem to feel that the mere fact that they have been criticised renders all further effort useless. That is a hopeless attitude.

From the fire of criticism a strong soul comes out all right. It is often a flash of lightning in a dark night that lights up the road the traveler is pursuing and makes him aware of a thousand dangers and pitfalls of which he would otherwise have been ignorant. Critics, however, should be very sure that they are actuated by proper motives. In order to judge others one should be very pure and very upright oneself. In very truth a critic's occupation is a vast responsibility.

INTERNATIONAL SITUATION LESS TENSE

There are indications that the tentative agreement between Generals Scott and Obregon will go far to lessen any danger of a clash between the American troops in Mexico and the soldiers of that republic. General Scott has always been known as a man of broad views and of wide sympathy with the Mexicans. He was undoubtedly the best man for negotiating with General Obregon, whose high-souled patriotism might very easily have been offended by a less tactful negotiator.

Accounts of the meetings between the two generals at El Paso show that Gen. Scott did his best to soften the asperities of the situation and did at length succeed in convincing General Obregon that the United States has no desire to interfere in Mexico's internal affairs.

Under the agreement as entered on tentatively the Mexicans will continue the pursuit of Villa and the United States troops will gradually retire toward the frontier and then be withdrawn to United States soil. This process is likely to occupy some time and the border cities will have the protection of the United States army for several months. During that time it is hoped that Mexico will be able to emerge to some extent from its present distracted condition.

There are indications that Germany is inclined to yield to President Wilson's demand that submarine warfare on unarmed merchant vessels shall cease. At least the stories emanating from Berlin hint that the kaiser and his chancellor Von Bethmann-Hollweg are hard at work striving to devise some ground for agreement between the United States and Germany on this question. It would unquestionably be a very bad thing for Germany if there should be a break with this country. A very large number of German ships, involving a very large tonnage, are interned in American seaports and it would be little short of a disaster to Germany should this country confiscate them as would be the case if war should break out. Then, too, Germany is not faring well in her land fighting. When the war is over the kaiser would be much better off if he had as one of the friendly arbitrators of conditions arising out of the war an important country like the United States. These considerations are likely to modify considerably the opinions of the kaiser and his advisers on this question of submarine action.

THE MAD TREE

John Burroughs, in his "Holidays in Hawaii," tells of a very strange tree. "There is a tree in the Hawaiian woods," he says, "that suggests a tree gone mad. It is called the hau tree. It lies down, squirms and wriggles all over the ground like a wounded snake; it gets up, and then takes to earth again. Now it wants to be a vine, now it wants to be a tree. It throws somersaults, it makes itself into loops and rings, it reaches, it doubles upon itself. Altogether it is the craziest vegetable growth I ever saw."—Morning Star.

Colonsay was named after St. Columba, an Irish preacher, who first brought Christianity to the savage Picts of Scotland, and through whom the North of England became christianized in the seventh century. Columba landed on Colonsay, and so it was named after him; but he made his home in Iona, or "the Island," as the Irish preferred to call it. Iona was often called Icolmkill, which means "the island of Columba of the Cell," because there the preacher made his simple hut, and founded a monastery.

Ireland may possibly have four additional political martyrs. Patrick H. Pearse, "provisional president of Ireland"; James Connolly, "commandant-general of the Irish republican army"; and two of their lieutenants, James J. Stark and Thomas MacDonagh, were courtmartialled and shot in London Wednesday. It is doubtful, however, if these unfortunate men will take any place in the hearts of the general Irish people, such as that occupied by the "Liverpool martyrs." Connolly and Pearse were men who were sadly mistaken in their methods, whatever excuse may have been possible for their aims. Even their aims are open to serious question, for the accredited leader of the Irish nation, John Redmond, whose high patriotism and genuine Hibernianism no one can question, condemns them. He feels that by their infatuation even if it was merely misguided and not deliberate and carefully planned, they have set back the clock in Ireland. For nearly fifty years Ireland has been struggling into her real place and when about to mount to her just position among the federated States of the British empire she finds herself set back and open to doubt and disability. It is to be hoped that with the unfortunate episode just closed will close also the last of Ireland's many troubles.

Personals

J. B. Doner and L. E. Brockman transacted business at Bloomington and Riverside Wednesday.

Mrs. Nelson Griswold and Mrs. Edmund Sykes were guests at dinner at the home of Mr. and Mrs. J. H. Braly, 205 Brand boulevard, Tuesday. They are old Minneapolis friends of the Bralys.

Mr. T. H. Rosenberger of 147 S. Brand boulevard, who was in Glendale last week for a brief visit to his family, left Wednesday morning for his gold-mining property in the vicinity of Searles lake, on the Mojave desert.

Mrs. Nanno Woods spent Tuesday night at Littlelands, the guest of Miss Gilbert. Mrs. Woods entertained the Woman's Club of Littlelands that evening with an original program entitled, "Feminine Fancies."

Miss Marion Helen Day, head of the Polytechnic school, Peoria, Ill., is a visitor at the home of Mr. and Mrs. John Barrows, 443 W. Colorado boulevard. Miss Day is on a visit to California and has been engaged to teach in the University Summer School at Berkeley.

Mrs. A. J. Maxwell, 114 S. Brand boulevard, entertained a number of ladies who are members of a 500 club, at a card party, Thursday afternoon. Those present were Mrs. Earl T. Shook, Mrs. L. P. Abell and Mrs. H. G. Hosford of Glendale; Mrs. Wright, Mrs. Grover, Mrs. Foulkes and Mrs. Pauly of Los Angeles.

Mr. and Mrs. John R. Barrows, 443 W. Colorado boulevard, are shipping their furniture and household goods to Buffalo, Mont., this week. The whole family will move to Montana May 12. Mr. Barrows has some extensive property interest in that part of the country which he has to look after.

Mr. J. H. Braly of 205 N. Brand boulevard three years ago obtained one of the first rose plants of a new species propagated by Luther Burbank. This has now developed into a wonderful tree that has climbed over and covered with a marvelous profusion of pink blossoms one of the garden fences. This beautiful pink rose is known as "The Thousand Beauties."

Mrs. W. W. Ramsey, 437 S. Adams street, entertained at a May day luncheon ladies of the Tuesday Afternoon club. Three past presidents of that society and the present president were among the guests. The three past presidents were: Mrs. Mattison B. Jones, Mrs. Dr. Chase, and Mrs. J. H. Braly; the present president is Mrs. H. E. Bartlett. The other guests were: Mrs. Dr. Arnold, Mrs. C. H. Temple, Mrs. W. W. McElroy, and Mrs. Frederick. The dining room was tastefully decorated with sweet peas. Dainty little colonial glass baskets filled with sweet peas were the favors and the place cards were decorated with sweet peas.

Mr. and Mrs. Blake Franklin, 1498 W. Third street, Mr. and Mrs. C. M. Van Dyke, 1430 W. Third St., Mr. William Vanderburg of Glassell park, formerly of Glendale, and Mr. Ross M. Crosher of Los Angeles, motored to Ventura, leaving about 12 midnight on Monday and arriving at the river early Tuesday morning. The party was charmed with the wonderful scenery and the broad waters of the river. All fished with varying luck but none came home without some trout. Hundreds of other fishermen and women were out on the river and the opening of the season was a success in point of the numbers of the fishermen if not of the fish.

THE FOURTH SINGLE TAX MEETING

A meeting will be held Monday evening, May 8, at 7:30, at the home of Miss Edith Tyler, 205 N. Maryland avenue. The main speaker will be Mr. Edgcomb Pinchon, a gifted young journalist from England, who will discuss the problem of vacant lands and unemployed men. As this is a bed-rock question many are anxious to attend these meetings and enjoy the privilege of also taking part in the program. All are cordially invited.

WOMAN'S CITY CLUB

"Treatment of Prisoners at San Quentin" is the program scheduled for Monday, May 8th, at the Woman's City Club. Warden James A. Johnston, who will be the speaker of the day, has made many interesting changes in the government of the prison since his appointment to the office, changes which have resulted in a much more humane treatment of the prisoners. Time will be given for questions from the floor.

Luncheon at 12. Program 12:45.

YOUNG MEN ATTENTION!

What are your ideals of a perfect wife? According to a certain famous philosopher, the only way to have a perfectly satisfactory wife is to train her from infancy. If you want to know what happened see "Mice and Men" tomorrow night with Marguerite Clark as the scientifically trained wife, at the Palace Grand, auspices of the Camp Fire Girls.

GLENDAL E FOOTHILLS

W. E. Hewitt, proprietor of the Glendale Laundry, took a business trip through Lankershim, Van Nuys, San Fernando and the valley generally, Tuesday. He says that the way in which the country is filling up is marvelous. The fact that the Owens lake water is now available is transforming what was practically wild country into a center of rapidly increasing population. Houses are going up everywhere.

The Foothills Lawn Tennis club is a flourishing institution. Under the fostering care of Mrs. W. P. Thompson of Grand View avenue it is manifesting much activity during these pleasant days. One of the latest features in connection with the club was a tennis breakfast at the home of Mrs. W. E. Evans, 113 Orange street. Those present at the breakfast were: Mrs. C. H. Temple, Mrs. A. Priest, Mrs. A. Pearce, Mrs. George Mitchell, Miss Pulliam, Miss Barbara Mitchell and Mrs. W. P. Thompson. After breakfast the party went out to the tennis court at the Brand residence on Grand View avenue, where a well-contested game was enjoyed.

HUMAN FAILINGS THAT KEEP MEN OUT OF A JOB

In the American Magazine is an interesting article by Hugh S. Fullerton entitled "Getting and Holding a Job." In it we are told about new scientific methods used by advanced concerns for determining the fitness of prospective employees.

"The chief reasons workers do not hold their jobs," says Mr. Fullerton, "lie in lying, drinking, vicious habits, laziness. But two other classes are responsible for a large percentage of office changes. These are the shifters and the wanderers."

"The shifters are the fellows who are dissatisfied with any job after they have held it for a time and those who have not yet discovered their proper places. These are not wanted anywhere."

"The wanderers are a smaller class of restless ones who move from city to city. They are tramps of business, like the now extinct tramp printer. The class is larger than anyone outside business would imagine. Some of the cards on record at some of the offices where the Employers' Advisory idea obtains show that men have worked in Yokohama, Sydney, Singapore, London, New York, Denver, San Francisco and Chicago in six years, and the expert, glancing over such a card, merely says, 'What is the use? He will be in Boston or Tierra del Fuego next year.'"

ON BEING BORN POOR

"Do you know what's bothering me now?" said a man who has made himself rich and is fast getting richer. "It's wondering what is going to become of my boys."

"I have four sons, all young, and all wholesome, natural youngsters, but if I keep on making money the way I'm doing now, I don't know what's going to happen to them when they grow up. There's nothing like being born poor to give a man a real start in life, with his feet firmly planted on the ground, where they ought to be, and be learning to rely on himself."

"I was born that way, and I've always been grateful for it. If I had been born rich I think I should have been more or less of no account. I had to get out and hustle and work to get along, and the habit of work has never left me since, as I hope it never will."

HIS ATTITUDE

"What's your attitude towards poetry?" he began diffidently. "We are always glad to print breakfast food, bean or canned soup poetry at our usual advertising rates," replied the weary editor.

LA CANADA

Mr. Victor Cheateaux, who has been recently injured on the county road, became suddenly worse Saturday night and a specialist was summoned from Los Angeles, and the physician found him in a very serious condition, as blood poison had set in, and ordered him immediately removed to the "Good Samaritan Hospital." His condition is very serious.

A number of the La Canada people are expecting to attend the May Fete at the Glendale High School, Friday afternoon, May 5, at 2 o'clock. A number of the La Canada girls who are students at the G. U. H. S. will take part in the exercises.

Dr. Smalley has purchased a new Ford touring car, which he will use in driving to his work in Los Angeles.

Miss Rowena V. Green, the popular teacher of the primary grades, will have charge of the program at the La Canada Improvement association, May 13. Miss Green wishes to announce this is the last program of the year for her pupils, as they will not take part in the last day exercises. May-day exercises and a Maypole dance will be given. Let everyone come. The La Crescenta people are urged to come. Everyone enjoys the children's program, so come. May 20, at 8 o'clock, in the Club hall.

Mesdames Durand and Armstrong attended the Parent-Teachers' meeting at the High School in Glendale, Monday afternoon, May 1. These ladies feel as though they were greatly benefited by this meeting with the interesting talks given by the teachers and parents.

Mr. R. G. Lyons took his position as trustee Monday, May 1. Mr. Tom Hall is the retiring trustee. The trustees in the past have done excellent work and we know that the present trustees will continue this good work.

The La Canada Republican club attended the rally at the school house in La Crescenta last week. Ten machines carried the residents of La Canada to this republican rally. The principal speakers of the evening were Messrs. William J. Hanlon and Dudley W. Robinson, attorneys-at-law of Los Angeles. Both of these gentlemen are very eloquent speakers and gave very interesting and instructive speeches. There followed after these addresses great applause from the audience.

The La Canada Improvement association held its regular meeting Saturday, April 29, at the Club hall. The business was transacted. The plans concerning the new schoolhouse were brought up and discussed. The program was exceedingly good. Mrs. Forrester gave a talk and stereopticon views were given on her travels in the Yellowstone Park. Mrs. McDonald gave two beautiful vocal solos.

Mr. and Mrs. Johnson are planning a trip to San Francisco next week.

The Y. P. S. C. E. will hold its monthly business meeting and social at the home of Mrs. Robinson on Homewood avenue, Friday evening, May 12. After the business meeting a social time of games and various other amusements will be enjoyed. Refreshments will be served. Remember the date, Friday, May 12. Let everyone come and have a jolly good time.

The people of La Canada can look forward to going to play in the near future. The actors and actresses will come from our own valley and everyone will enjoy it more by knowing the people who take the different parts.

Mr. Robert Cooper has been confined to his bed for a week and is now rapidly recovering. It will not be long before he will be up and among his many friends again.

The Christian Endeavorers will take for their subject Sunday night, May 7, "The Consecration of Talents," Matt. 25:14-30 (This is a consecration meeting). The meeting begins at 6:30. Let all the people come and be on time. This service will be followed by the hour of Bible study led by the pastor.

The La Canada P. T. A. will hold its regular monthly meeting Friday afternoon at the schoolhouse, at 2:30 o'clock. The report from the delegates that attended the convention at Los Angeles will be given. Officers for the following year will be elected. Let everyone come. Remember the date, Friday, May 5, 1916.

Mrs. Maynard and daughter of Pasadena spent one day of this week in the valley with friends.

Mr. and Mrs. Olsen and son, Charles, spent Sunday in Glendale.

Mr. and Mrs. Holden are starting in the building of their home on Haskell street. This will prove one of the prettiest places in the valley.

The date for the hearing of Roy and Texas streets will be the 15th of May. It was announced last week as the 8th, but this was a mistake.

Members and friends of the La Canada P. T. A. remember the meeting May 5th, Friday, 2:30 p. m. Im-

portant business is to be finished, and a complete report of the District Convention will be given. As the year is so near its close, let us make a special effort to attend this meeting and gain the inspiration which comes from a wider knowledge of the wonderful work which the organization is accomplishing. Refreshments will be served by the hospitality committee, Mrs. Jay Schueffelin, chairman, assisted by Mrs. Inger Nyby.

A number of La Canada people attended the illustrated lecture on "California Wild Flowers," given at the La Crescenta schoolhouse April 28 by Mr. Paine of Los Angeles. Besides the lecture, there was an exhibition of a large and varied collection of our well-known wild flowers and ferns, and some rare species, seldom found in this vicinity. There were also on display many colored photographs of California wild flowers, which were sent out by the County Library association.

Mr. Paine is an enthusiast on wild flowers and easily succeeds in arousing his hearers a genuine interest in his subject. After the lecture he was surrounded as long as he staid, by an eager crowd of questioners. It is hoped that La Canada can be favored in the near future by this same lecture.

WALKING STICKS

Walking sticks have been used by men from Bible times down to the present age, says the Minneapolis Journal. These have come in all varieties from the plain staff to the gold and silver mounted ones according to the fancies and customs of the age.

When, in 1700, footmen attending gentlemen were forbidden to carry swords, these dangerous weapons were usually replaced by a staff with a large silver handle. This was called a porter's staff. Some 30 years later gentlemen began to discard their swords and to carry large oak sticks with thick knobs, whereon were carved ugly faces. Before long a competition arose between long and short walking sticks. A writer of that time describes the long ones as "leaping poles," while others preferred a yard of varnished cane. This latter is still in vogue, ornamented to suit the taste of the wearer.

'TWOULD MAKE A FISH SHED TEARS

The pessimist was suffering from rheumatism. "Every bone in my body aches," he complained. "You ought to be glad you are not a herring," said the optimist.—Farm and Fireside.

It is said that clocks which do not require hands and faces are now being made in Switzerland. The timepiece merely stands in the hall, and you press a button, when, by means of the phonographic internal arrangement it calls out "Half-past five," or "Five minutes to nine," as the case may be.—Exchange.

SIDELIGHTS ON THE ALUMNI PLAY

"The Voice of Conscience," the coming Alumni production, is said to be a play of sharply contrasted characters. The author has the faculty of drawing together people from the opposite ends of the social stratum and making them kin. There is a scene between the daughter of the governor of the state and a convict, a boy who has been found guilty of murder and condemned to die on the gallows—characters who are as unlike as the two poles, yet the author provides them a common meeting ground and makes them friends.

The part of the convict is played by Dana Burket. This young actor, best known in comedy parts, is said to have developed the role into one of surprising strength.

The governor's daughter is portrayed by Miss Cora Frenz. Miss Frenz is a newcomer in Glendale dramatics and is said to be a real discovery. The play is essentially a masculine one, so the young lady has rather a difficult task in making her part weigh up to the other leaders in the cast. However, she has gone to work with boundless energy and has made her character one of weight and sincerity.

BREAD UPON THE WATER

Just after the disastrous cyclone in St. Louis some years ago it was found that one of the churches which had suffered great damage had at some previous time contributed to a school in far-away Burma. No sooner had the news of the cyclone's damage reached the school than the members took up an offering, amounting to some twenty-five dollars, and forwarded it to the church in America. Think of that! The kinship of the nations in Christ could not better be demonstrated, and the casting of bread upon the waters seldom met with a heartier and kindlier return.—Church Sunday School Magazine.

SOME MYTH

The dealer in antiques was showing an old violin to a probable buyer. "Yes," he said, "that is of historical interest; that is the identical fiddle Nero played while Rome was burning!"

"Oh, that is a myth." The dealer agreed, saying, "Yes, it is; and Myth's name was on it, but it has got worn off."

"If life is an opportunity, so is every hour. If existence is a big thing, so is every day. To undervalue the minutes means that we do not rightly estimate life itself. Respect the little fragments of time, which, fitted together in the great mosaic, constitute life."

"The invention of a typewriter which automatically counts the number of words it writes, will be of value to editors, public stenographers, court reporters and telegraph companies.

MITTS NOW IN FASHION

By Margaret Mason
"Permit me now to show my mitt," said swaggar Helen Hogan. Then raised aloft her mittened hands "Mitts mit uns" is our slogan.

NEW YORK, April 28.—Yes, mitts are now on every hand and whatever will become of all those delicate situations that have to be handled with kid gloves goodness only knows.

If we are going into the old fashioned fashions thoroughly it is only natural that we should look to our hands as carefully as to our hips and you must needs admit that the mittened hand is as much a part of the 1830 modes as the hooped and crinolined skirt.

Black silk mitts and white silk mitts and mitts ecru, grey and pastel tinted are ready to our hands, but the really first hand mitt is of all over black lace to add perfection to the frilly old flowered organdies and muslins so reminiscent of old lavender and Godeys Lady's Book.

Now every woman knows that nothing so shows up a hand's imperfections like a mitt. If your nails are not well shaped, your knuckles red or knobby they will be discovered and uncovered in mitts. All the little manieures are already chortling with glee at the rich summer harvest of lady fingers that will now be theirs as long as the mitt is destined to wave on the hands of the brave and fair.

Jewelers are also taking notice for rings will no longer hide their light under a kidskin, but w twinkle unrestrained on nude digits.

A single odd ring, original and unique of design and denoting the personality of the wearer, is most to be desired. The old-fashioned cameo rings, coral rings and hair rings are being revived and the whole old-fashioned sets of carved coral, cameos and jet are greatly in demand; earrings, brooch, locket, ring and bracelets in their quaint and reminiscent entirety.

Seed pearl sets also are favorites and old-fashioned sets of gold, black enameled, and set with pearls are exquisite.

Too many rings of course spoil the mitt, for it is an exponent of the clinging vine or ingenuous innocence mode of dress. One ring on each paddy is quite all that is permissible to her who is a stickler for good taste and the eternal fitness of things. Hence all the more need for care in its selection, individuality and design.

Art jewelers are consequently on their mettle with their metal turning out this costume jewelry. Happy indeed is the maid who is the proud possessor of an exquisite carved red coral set, brooch, earrings, bracelets, ring and back comb all complete, that has been handed down from a great-great aunt.

But take heart, fair ladies who possess no jewel-hung family tree, the modern jewelers are no pikers when it comes to imitating antiques so even you may hail with joy the advent of the mitt.

Yea, verily, I believe every woman will, since it leaves her fingers free to stick in every pie.

NINETY PER CENT OF AMERICAN BOYS GO INTO BUSINESS

"We are a business race, we Americans," says a writer in the Woman's Home Companion, "nine-tenths of our boys are destined for business; and the other tenth, who enter professions, need a knowledge of how business is transacted even more. Parents who covet a clean-cut, successful business career for their boy can do him a tremendous service by laying the foundations of that career while they have him still in their own hands. It was Cardinal Newman who said, 'Give me a child until he is seven years old, and I care not who has him afterward.' And psychologists are proving to us more conclusively every day that the years we once considered wastes, from an educational viewpoint, are the years in which most of our habits, including business habits, have their root."

Half the gossip of society would perish if the books that are truly worth reading were but read.—Dawson.

BURBANK

Burbank High Wins

More baseball was in evidence Friday when San Fernando came over to try and play the High School off their feet. Even as previous as the initial frame when Booker Tover in right grabbed off that running one handed stab, thus nipping a sure hit from the S. F. boys, it looked like a safe bet for Davenport's colts. In the first Don hit, then with two out on good judgment of the S. F. pitcher, Cap. Davenport took a rap at the boss hide and our first run came in from 3rd in a canter. Up to the 4th this was it with Gas and the mission guy trying for strikeout records with about even honors. At this inopportune moment the recent grind to cram for exams began to tell on our stalwart heaver's mighty right and with a couple on, the derrick hove in sight and Fish, the elusive, slippery elm artist, took a crack at shying 'em over. The Mexican marvel laced out a beaut and with all benches charged we got a nice fat passed ball and a score filtered over the landscape.

But that wasn't all. Things don't break that way. When the locals had time to pick the foxtail from off their shining new suits the score stood 3 to 1 against. Notwithstanding and of necessity after a rest of one inning, Davenport got safe on a fumble, stole 2nd and 3rd and came in on a short hit by the Irishman, Malone.

S. F. imagined a 2-run lead was enough so laid down in their half while Burbank came right back for more and annexed 3 by dint of a few safe hits, stolen sacks and nice running. Every few innings the boys pulled off some other runs to keep things pleasant, while S. F. got the benefit of plenty of fresh air and scenery. This makes about a dozen games straight for Burbank "The City Beautiful."

Burbank's lineup was: Barager, 2b; Shelton, 1b; Edgerly, 3b; Davenport, ss; Malone, lf; Storm, rf; Thedaker, cf; Crawford, c; Thompson, p; Grout, p.

The final score was: Burbank, 9; San Fernando, 4. Umpire, Stanford.

The Burbank High School baseball team defeated the Owensmouth High School team at Owensmouth Tuesday evening of this week by the score of seven to one. The Burbank team has not been defeated so far this year. Burbank will play the Van Nuys team next Tuesday evening.

Christine M. Harper, daughter of Mrs. John Harper, of 420 Magnolia avenue, died at 10 o'clock p. m. April 27, from leptomeningitis, at her home in Burbank, at the age of 20 years, 8 months and 8 days. The death of Miss Harper was a sad surprise to her many friends, as she was stricken but two weeks ago while teaching at Colton, California.

The deceased left to mourn her death, her mother and two sisters. The funeral was held at the First Presbyterian church Saturday afternoon at 2 p. m. and the remains were cremated and interred at the Los Angeles Crematory, Scovern-Letton-Frey Undertaking company of Tropic and Burbank having charge of funeral arrangements. The death of Miss Harper was doubly sad through the fact that she was to have been a June bride, being engaged to a business man at Kingman, Arizona.

Birthday Surprise
Mrs. Ben Clark perpetrated a surprise on her husband's birthday, Wednesday of last week. Friends and neighbors arrived at the home on Sunset just in time to interrupt Mr. Clark's preparations for an early retirement. A pleasant evening was spent, the time being interspersed with music, social converse and other diversions. Refreshments were served by the hostess.

The Skelton family, who have been living in the Avery house on Sunset boulevard, have gone back to Vancouver. They were well pleased with Littlelands, but had to leave for the present on account of their business affairs. They may return later for a permanent residence.

Last Monday Mrs. Pond gave a luncheon at her home on the Zachan ranch, to celebrate her birthday anniversary. Her guests were her friends and neighbors.

Home Croft Club

At the Home Croft meeting last Friday evening there were discussions on the subjects of cloth houses and the cultivation of berries. It seems to be the opinion of those who have experimented with the cloth house that it is not a very great success and probably will not be used to any great extent here. Mr. Hatch, who has a fine berry patch, attributes his success to an abundant use of water and on the free use of leaf mold.

The committee appointed to confer together as to the advisability and feasibility of a colony fair or festival held their preliminary meeting Friday night, after the Home Croft meeting. A report will be given later.

At the Bee club meeting last week

The party consisted of Messrs. Leo Lang, Ed. Thomas, Earl Sims, Frank Begue, Eddie Gilmacher and Al Richardson. They were gone a couple of days, returning Monday evening.

SCOUTS HELP TO ENFORCE LAW

Boy scouts in Toledo, O., have recently been helping to enforce the observance of traffic regulations. They went about fastening red tags to the automobiles of persons who were violating rules; "parking on wrong side of street," "no lights on machines," "reckless driving," were some of the misdemeanors listed on the red cards which were intended as warning not to violate the rule a second time. The scouts took to the police department duplicate cards bearing the date of the offense, the license number of the car, and an explanation of when and where the violations of the ordinance occurred.

"The reports from Toledo are to the effect that the work of the scouts in this campaign has been productive of much good," says Scouting.

SONG OF LIFE

Listen to the song of life. Look for it and listen to it first in your own heart. At first you may say it is not there; when I search I find only discord. Look deeper. If again you are disappointed, pause and look deeper again. There is a natural melody, an obscure fount in every human heart. It may be hidden over and utterly concealed and silenced—but it is there. At the very base of your nature you will find faith, hope and love. . . . Underneath all life is the strong current that cannot be checked; the great waters are there in reality. Find them, and you will perceive that none, not the most wretched of creatures, but is a part of it, however he blind himself to the fact and build up for himself a phantasmal outer form of horror.—Light on the Path.

SEVEN PRINCIPLES

Theosophy divides man into seven principles, considering him under the three aspects of the divine, the thinking or the rational, and the animal man—the lower quaternary or the purely astro-physical being; while by Individuality is meant the Higher Triad, considered as a Unity. Thus the Personality embraces all the characteristics and memories of one physical life, while the Individuality is the imperishable Ego which reincarnates and clothes itself in one personality after another.—H. P. Blavatsky.

FAMOUS ELM DISAPPEARS

The famous big elm which stood in Independence square, Philadelphia, has recently been cut down. It is said to have been planted by King Edward VII. of England, when he visited the United States in 1861.
